TEST	DURATION	PREPARATION
TRANSCRANIAL DOPPLER WITH CONTRAST	30-45 Min	No special preparation required. The test involves insertion of an IV cannula. We ask that patients are well hydrated prior to the test. Drink 500ml of water 1 hr prior to the test.
ECHOCARDIOGRAM	30-45 Min	No preparation required. The test requires access to the front of the chest and ribs. Females will be asked to put on a gown and remove their 'bra' and other garments from the waist up.
OTHER TESTS		No preparation, unless advised.

WHAT TO BRING

NEW PATIENTS

Please contact us on receipt of this referral. There are encrypted online forms to complete prior to your Initial appointment. Please bring copies of previous investigations including any brain imaging (MRI) , heart (ECG, echocardiogram, Holter), and blood test results. (if you are unable to obtain these please talk to our staff who will assist).

QML S&N Other _____
